RE: Willcox Wharf – Windmill Point Rebuild Project

Dear Neighbor:

We would like to provide you with an update on the Dominion Energy electric transmission project between Willcox Wharf and Windmill Point. Over the next few months, you will see our employees and contractors delivering equipment within the right of way and beginning construction activities.

Some of the equipment you may see includes:

- Pickup trucks
- Bucket trucks
- Cranes
- Construction materials for the structures

At this time we will not utilize Dalmation Drive beyond our existing transmission easement boundary to access the construction work area.

Your electric service will not be interrupted as a result of this project. Crews will work to minimize any inconvenience to homeowners. We ask that you please remain clear of the construction area, so our team may work safely and efficiently. Additional construction updates will be provided as the project progresses.

If you have any questions, please contact us at 888-291-0190, powerline@dominionenergy.com or visit www.dominionenergy.com/willcox.

Sincerely,

Dominion Energy
