

2025 Prospective Product Content Label¹

Dominion Energy Green Power® VEPGA, COV, and Large Federal program is a Renewable Energy Certificate (REC) product and does not contain electricity, which may be billed separately.

A REC represents the environmental benefit of 1 megawatt-hour (MWh) of renewable energy that can be paired with electricity. For more information, see: DominionEnergy.com/VaGreenPower and green-e.org/rec.

This product is sold in blocks of 337 kilowatt-hours (kWh) or matches 100% of your electricity use. This table provides the 2025 prospective renewable resource mix in the product.

Green-e® Energy Certified New Renewables² in Dominion Energy Green Power® VEPGA, COV, and Large Federal program 2025

RESOURCES	AMOUNT	GENERATION LOCATION
Eligible wind, eligible biomass, or biogas <i>In some cases, solar, low-impact hydro, or geothermal.</i>	100% Green-e® Energy Certified Content	National

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of the RECs you purchased.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years. This product may include generation from a facility that is approved under a strict set of criteria as repowered or a facility that is approved for extended use by Green-e® Energy.

For comparison, the 2024 average mix of resources supplying Dominion Energy Virginia included: Coal (5.7%), Nuclear (27.3%), Gas (41.6%), Oil (.1%), Hydro (.6%), Renewables (Solar, Biomass and Wind) (2.3%), Storage (Net) (-0.6%), Purchases (Net-PJM and PPA) (23.0%) [Dominion Energy Virginia, 2024 data].
